SUMMARY

I am a Bachelor's graduate in Informatics Engineering and over two years of experience in web development. I have expertise in various technologies, including JavaScript, PHP, NuxtJS, NextJS, ReactJS, React Native, VueJS, Laravel, and NodeJS. I am skilled in building scalable, high-performance websites and applications, handling both front-end and back-end development tasks, and am experienced in managing databases, RESTful APIs, and version control systems like Git. I have a strong ability to work in a team and contribute to agile software development projects, I am excited to contribute expertise to innovative projects, ensuring the seamless execution of dynamic and user-friendly digital solutions.

EXPERIENCE

Fullstack Software Engineer

01/2023 - Present

PT Candi Argo Joyo

As a full-stack web developer, my expertise lies in crafting engaging user interfaces using Vue.js, React.js, Nuxt.js, Next.js, Laravel, and CodeIgniter. I specialize in building dynamic and responsive frontend components that seamlessly integrate with backend systems. In this company I've finished for several companies such as Local companies, Indonesian Ministry, and some Japanese Company.

- I've been managing successful web app projects
- I've been creating an Android App with React Native
- I also work outside of the scope of work such as installing PC, Windows, configuration join domain, etc.
- I also make certain designs for my company using Figma, Photoshop, Adobe XD, etc.

Bangkit: Cloud Computing Path Student

02/2022 - 07/2022

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

Learn how to use Google Cloud Platform (GCP) to work together as a team in the cloud. With GCP, we can store data, run applications, and collaborate securely from anywhere. It's easy to share files, manage projects, and scale resources as needed. By mastering GCP.

Freelance Backend Developer

01/2022 - 03/2022

Adhi Persada Gedung

Configure API with Laravel for Android Consume, I work with my team of 6 people, including 2 backend, 2 frontend (android), and 2 designers, we work together comprehensively and cohesively.

Freelance Frontend Web Developer

08/2021 - 10/2021

Renodots SG ↗

As a Frontend Website Developer at Renodots.com in Singapore, I focus on creating user-friendly and visually appealing websites using Laravel. Collaborating closely with design teams, I ensure that our websites are both attractive and easy to navigate across different devices and browsers. My goal is to continuously improve the user experience and contribute to the success of Renodots.com in Singapore's competitive online market.

Freelance Frontend Developer

06/2021 - 08/2021

Puslitpen UIN Syarif Hidayatullah Jakarta

As a Frontend Developer at the Center for Research and Development (PUSLITPEN) of UIN Syarif Hidayatullah Jakarta, my role involves creating user-friendly web interfaces using Laravel technology. Collaborating with teams to build dynamic web applications. By blending design creativity with technical skills, I contribute to developing innovative solutions that enhance research and development initiatives at PUSLITPEN.
